

MPI 2611 WALL FILM

So Easy, Anyone Can Install It.

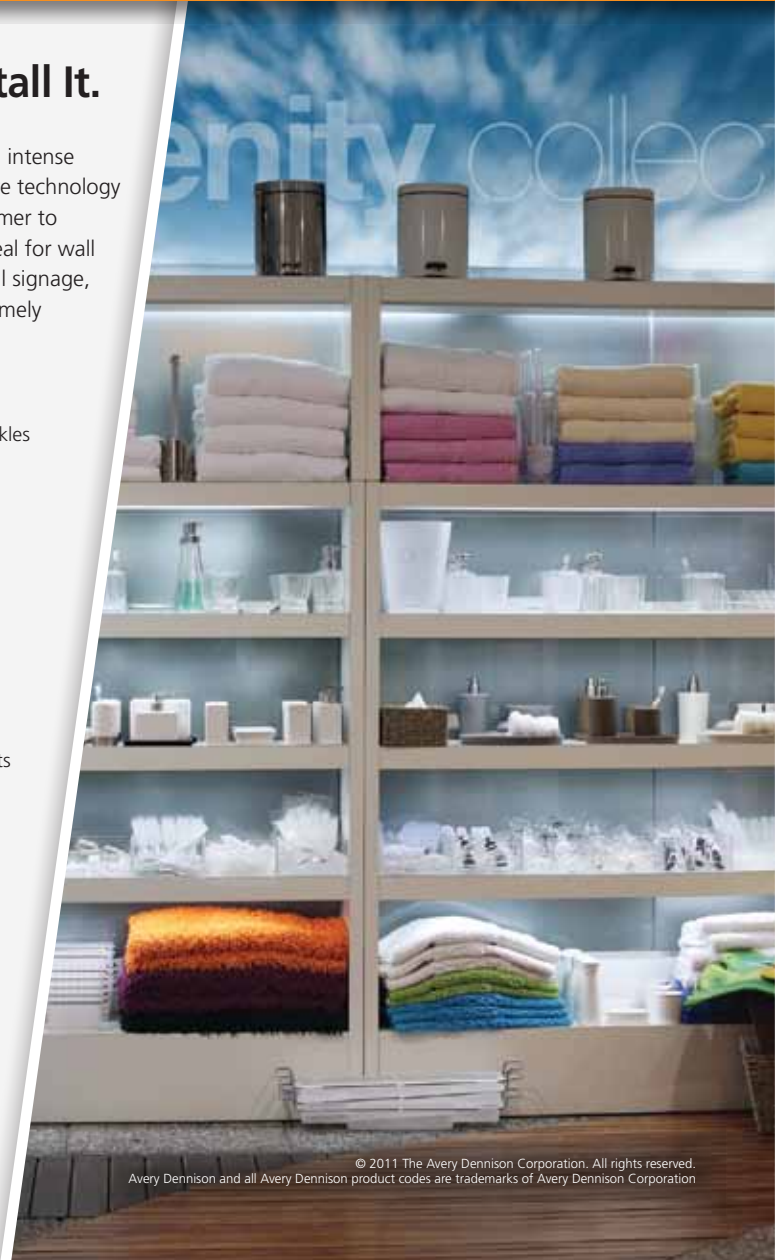

Avery Graphics MPI 2611 Wall Film provides an intense look, excellent ink receptivity and superior adhesive technology to maximize the appearance of walls. From consumer to commercial applications, MPI 2611 Wall Film is ideal for wall murals, consumer wall decoration, retail chain wall signage, POP wall signage and wall labeling – and it's extremely easy to apply.

Key Features:

- **6.0 calendered film thickness** helps eliminate wrinkles and bubbles
- **Removable adhesive** allows for easy repositioning during installation without damaging walls
- **Luster finish** limits glare
- **Consistently prints well** with most solvent, eco-solvent and UV-curable inks
- **Easily compatible** with Avery DOL products for added long-term durability

Benefits:

- **Reduced application time**, ultimately lowering costs
- **Safe for use with most paints**, while maintaining a great look over time
- **Provides a sophisticated look** to indoor graphics
- **Up to one-year removability**
- **Long-term durability guaranteed**

Get The Right Color The First Time.

ICC Color Profiles are available on our Web site for many popular printers and RIPs to give you the perfect starting point for the right color and image the first time the media is printed. This means you save time while incurring no up-front expense in color profile creation.

Tested. Guaranteed.

Use our media with confidence. Our ICS Performance Guarantee guarantees that your printer and ink coupled with our media and overlaminates will work together based on each component passing rigorous scientific and durability tests. For additional details and durability recommendations, visit our Web site.
