

NIGHT BRIGHT™

REFLECTIVE VINYL FOR INKJET PRINTING

NIGHT BRIGHT™ reflective vinyl has been specifically formulated to be printable using multiple imaging platforms including solvent, eco-solvent, UV, and latex ink and features excellent cutting and weeding with computer sign cutting equipment. With 3+ years of outdoor use, NIGHT BRIGHT™ is a 6-mil product providing easy handling and quick application using either the wet or dry method. NIGHT BRIGHT™ comes standard in white 48-in x 25 yd. rolls. The material retains similar day and night time appearance and retains most of its reflectivity even when wet. It comes standard with a permanent, pressure sensitive adhesive designed for applications such as standard vehicles, straight trucks, semi-tractors, semi-trailers markings and graphics, vehicle magnets, cut letters, printed decals, magnets, real estate signs, oil well markers, stickers, emblems, safety signs and all other non-regulated signage including non critical street signs such as "no parking", "restricted parking", etc. as well as application to A-frames such as Plasticade® products.

PRODUCT HIGHLIGHTS:
