

Vandal Guard™ Anti-Graffiti / Dry Erase Laminate

Vandal Guard™ anti-graffiti / dry erase laminate is a specially formulated overlamine with optically clear, permanent pressure sensitive adhesive designed to protect screen and digitally printed images and signs from a wide variety of stains and chemicals including paint and permanent marker. It is designed for indoor / outdoor dry erase applications and flat perforated window graphics. Graffiti can be easily and repeatedly removed using common economical cleaners without damaging the surface of the laminate.

Vandal Guard™ is a cold overlamine designed to be applied over signs and graphics printed with inks that have long light-fastness such as solvent, eco-solvent, latex, etc. Apply over cast or calendared vinyl with a cold laminator or directly to flat substrates. Vandal Guard™ is also suitable for indoor/outdoor dry erase and flat perforated window applications.

Features and Benefits

- Optically Clear
- Permanent Pressure Sensitive Adhesive
- High Gloss Finish
- Water Resistant
- Indoor or Outdoor Use

Applications:

- Flat Surfaces
- Rigid Substrates
- Printed Surfaces
- Signs
- Perforated Window
