

ECO SOLVENT PRINTABLE POLYCARBONATE FOR GREAT-LOOKING GRAPHICS!

WHAT IS IT?

Claritex Digital Print Polycarbonate is the latest innovation in graphic films manufactured by RTape Corp. Specifically designed for printing with solvent, eco-solvent, latex and UV-curable inks, this product is available in:

- **10 mil (250 µm) super bright white velvet/matte, satin finish** printable on the matte side

TOP COATED BRIGHT WHITE ADVANTAGES:

- Engineered, tested and thoroughly compatible with OEM inks used in Epson, Mimaki, Mutoh, Roland, and other popular printers.
- Durable top coating resists scratches, and will not chip or flake off.
- Overlamine not required when used in retractable banner stands.
- With over 95% opacity, our Claritex super bright white provides needed hiding power from distracting shadows.
- Velvet / matte, satin finish prevents reflections from overhead lights that can obscure the graphic and detract from readability.
- Excellent lay flat characteristics prevent edge curl when the product is used in banner stands. The flatness of the sheet prevents head strikes during printing.
- Can easily be laminated with compatible Eclipse[™] polycarbonate overlaminates, offering a complete tradeshow solution.
- Heat resistant to 270°F (132°C).
- Profiles for many popular printers and RIPs are available on our website.

OTHER GRAPHIC PRODUCTS FROM RTAPE:

RTape manufactures a complete line of both paper and film application tapes for signmaking, surface protection, and vinyl converting. In addition to **Claritex[®]** polycarbonates, our products include **ApliTape[™]**, **Clear Choice[®]**, and **Conform[®]** application tapes, **DigiMask[®]** surface protection films, **Eclipse[™]** overlaminates, **PalletProtek[™]** platen protection tapes, **ProGrade[™]** paint masks and **VinylEfx[®]** metalized vinyl media. Our products are available through distributors and are sold in over 75 countries worldwide. For more information on **Claritex[®]** Polycarbonates or any of our products, samples or services, visit us at rtape.com or contact us at sales@rtape.com

UV & LATEX INKJET PRINTABLE POLYCARBONATE FOR STANDOUT DISPLAYS

WHAT IS IT?

Claritex UV-Curable Inkjet and Latex Inkjet Printable Polycarbonate is the latest innovation in graphic films manufactured by RTape Corp. Specifically designed for UV and latex inkjet printers, this product is available in two thicknesses, two finishes and three widths:

- **10 mil (250 µm) clear velvet/polish matte finish** printable on the polish side
- **10 mil (250 µm) bright white velvet/matte finish** printable on the matte side
- **15 mil (375 µm) bright white velvet/matte finish** printable on the matte side

CLEAR VELVET / POLISH ADVANTAGES:

- Excellent choice for backlit signage and displays, graphic overlay panels, illuminated menu boards and vending machine graphics
- Exceptional reproduction of high resolution, colorful graphics.
- By printing in reverse on the gloss surface, the velvet finish protects the printed graphic.
- The velvet finish on the outside surface of the film prevents distracting reflection from overhead lights, improving readability and enhancing the beauty of the printed graphic.
- Mar-resistant finish conceals unsightly surface scratches
- 10 mil film is rigid enough to easily slide into backlit display boxes.

BRIGHT WHITE VELVET / MATTE ADVANTAGES:

- Exceptional reproduction of high resolution, colorful graphics.
- 95% opacity provides needed hiding power to eliminate distracting background shadows.
- Perfect for tradeshow panels, retractable banner stands & POP displays.
- Excellent layflat characteristics prevent damaging and costly head strikes during printing. They also eliminate edge curl, a crucial characteristic for media used in banner stands.
- For added rigidity, laminate the printed side of the white polycarbonate with your choice of a compatible Eclipse™ Polycarbonate or Eclipse™ Patterned PVC Overlamine.

UV-CURABLE LATEX INKJET PRINTABLE

RECOMMENDED APPLICATIONS:

- **Total Solutions for Tradeshow Graphics**
- **Retractable Banner Stands**
- **Point of Purchase Displays**
- **Backlit Signage**
